Add VetCompanion to your phone or tablet
For easy access to the VetCompanion app, just follow these instructions for your iPhone or Android device:

On iOS Devices
First open safari on your phone. Type our website address into the browser bar at the top of your phone screen – www.vetcompanion.com. When our website opens on your phone, be sure to login to your personal VetCompanion account. You do that by clicking the white LOGIN box at the upper righthand corner of our website. When you login, it will now show you all of our clinical topics.

Next - click the share button on the menu bar at the bottom of your phone (it’s the icon that looks like this 🔄️). You'll see the menu options that are pictured below. Just click "Add to Home Screen" and you're done.

On Android Devices
Open VetCompanion in Chrome and open the menu. You'll see the menu below. Just click "Add to homescree" and you're done.
Add to homescreen
